Our South Sudanese Coffee Heritage

From the turn of last century, Greek traders were importing coffee from Ethiopia. Just before WWII, the first attempts to grow coffee in Yei County by a known established Greek trader were successful, resulting to cups of coffee being served, mostly in the Greek-run coffee shops of Souq Juba.

Notos is reintroducing the best coffee in town. We are using Liberica variety selected by our team in Yei and sent to Uganda for processing, roasting and blending with Robusta and Arabica. With every cup of coffee you enjoy, you support South Sudanese coffee farmers as well as other farmers from the region. Our Coffee has all fair trade and traceability certificates.
